April 24, 1969

Hon. Harold S. Zeis, Mayor
and Members of City Council
City of Fort Wayne
City Hall
Fort Wayne, Indiana

Gentlemen:

Re: Wastewater Treatment Requirements

The reports submitted by the Conferees and participating agencies at the reconvening of the Conference on Pollution of Lake Erie and its Tributaries pointed out the need for continued and accelerated action on the construction and operation of wastewater treatment facilities.

The Stream Pollution Control Board at its meeting on March 21, 1969, considered the Recommendation of the Conferees of the Conference on Lake Erie with respect to the requirement for wastewater treatment to achieve at least 80 percent reduction of total phosphorus. The Board determined that all municipalities and industries with significant amounts of phosphorus in the effluent would be required to provide wastewater treatment and/or control facilities to achieve phosphorus reduction by December, 1972. The City of Fort Wayne will be required to provide facilities to meet this requirement as soon as practicable methods are developed and not later than 1972.

In addition, the following items are to be implemented. These were included in the Summary of the first and second sessions of the Conference which was mailed to you on January 1st, 1966.

1. Effluent disinfection, effective not later than the end of 1968.
2. All new sewerage facilities are to be designed to prevent the necessity of bypassing untreated wastes.
3. Combined storm and sanitary sewers are to be prohibited in all newly developed urban areas and eliminated in existing areas wherever feasible. Existing combined sewer systems are to be patrolled and flow-regulating structures adjusted to convey the maximum practicable amount of combined flows to and through treatment plants.
4. Programs are to be developed to prevent accidental spills of waste materials to receiving waters.

Hon. Harold S. Zeis, Mayor
City of Fort Wayne

April 24, 1969

In addition to the preceding, the City of Fort Wayne is reminded that in accordance with Indiana Water Quality Standards the City is to provide advanced waste treatment on or before the end of 1977.

Please advise this office by July 1, 1969, of the action the City is undertaking relative to the preceding.
